DALLAS, TX

9 October 2011

London Pet Butler Announces Its American Branch Launch

London Pet Butler – TEXAS has arrived in the North Dallas and Collin County areas. It is the American branch of London Pet Butler, which was founded in 2009 in London, England UK by Sharon Marsh-Wyly, a decades-long Texan. The pet care and house sitting company has crossed the ocean to offer its services in the North Dallas and Collin County areas, as well.

Sharon was a Texas REALTOR® for 15 years, representing clients in over \$26 million in real estate transactions. As a former appointed City of Plano Commissioner, she disbursed an annual budget of \$2.3 million in federal and local government grant community funds, and co-authored “Future Dimensions”, the city’s 20-year development plan. Sharon was also a board member of Video Association of Dallas, producers of the popular arts fund-raiser “24-Hour Video Race” screened annually at Angelika Film Center.

A native of Savannah, Georgia and alumni of Indiana University, Sharon moved to London, England UK in 2009, where she started London Pet Butler – UK. Her lifelong love and ownership of pets bolstered the company’s reputation abroad as a premiere pet care and house sitting concern. Of particular note were the varied clientele of entertainment and media industries, international intercompany job transferees, and American and Canadian expatriates.

In 2010, London Pet Butler’s dedicated work with pets was nominated by the Forum for Expatriate Management (London/New York City) to be included among such peers as HSBC Bank, UK, Ernst & Young, and CIGNA as “Destination Services Provider of the Year”.

“I’m delighted now to bring my work home, so to speak”, Sharon remarks. “My entire family was reared loving and taking care of all our pets over the years. My children, especially, learned the joys, duties, and heartache of raising animals as beloved members of the family. I’ve guided them through newborn pets, to the care of aging pets, to losing their best friends in old age. I know it’s made them better people.”
